geophysical prospecting

Official Journal of the
European Association of Exploration Geophysicists

CONTENTS OF VOLUME 41 1993

NUMBER 1: JANUARY 1993

Induced gravity anomolies and rock-burst risk in coal mines: a case history. *U. Casten and Z. Fajklewicz* 1

A semblance-guided median filter. *E. C. Reiter, M. N. Toksöz and G. M. Purdy* 15

Enhanced servovalve technology for seismic vibrators. *Dennis K. Reust* 43

A study of magnetoelectric static distortion in the context of intrusive volcanism. *D. Beamish and J. M. Travassos* 61

Contamination indications derived from electrical properties in the low frequency ranges. *F. Börner, M. Gruhne and J. Schön* 83

Seismic ray tracing using linear traveltime interpolation. *Eiichi Asakawa and Taku Kawanaka* 99

Gradient array profiles over thin resistive veins. *Peter Furness* 113

Publications Received 131

NUMBER 2: FEBRUARY 1993

Aspects of 1D seismic modelling using the Goupillaud principle. *Evert Slob and Anton Ziolkowski* 135

Viscoelastic seismic responses of 2D reservoir models. *I. B. Kang and George A. McMechan* 149

Borehole Stoneley wave propagation across permeable structures. *X. M. Tang and C. H. Cheng* 165

A comparison of laboratory and field measurements of *P*-wave anisotropy. 2.5 dimensional sedimentary basin. *M. S. Sams, M. H. Worthington, M. S. King and M. Shams Khanshir* 189

Examples of resolution improvement in geoelectrical soundings applied to groundwater investigations. *Stewart K. Sandberg* 207

Radon depth migration. *S. T. Hildebrand and R. J. Carroll* 229

NUMBER 3: APRIL 1993

Modelling guided waves in cross-hole surveys in uncracked and cracked rock. *M. Lou and S. Crampin* 241

Deghosting using a twin streamer configuration. *B. J. Posthumus* 267

Secondary shear waves from source boreholes. *J. A. Meredith, M. N. Toksöz and C. H. Cheng* 287

Simulation of realistic synthetic reflection sequences. *A. T. Walden* 313

A physical model study of scattering of waves by aligned cracks: comparison between experiment and theory. *J. M. Ass'ad, R. H. Tatham, J. A. McDonald, T. M. Kusky and J. Jech* 323

Estimation of elastic parameters from AVO effects in the Tau-*P* domain. *J. Helgesen and M. Landrø* 341

Aperture compensation tomography. *P. Carrion A. Vesnaver, G. Boehm and F. Pettenati* 367

NUMBER 4: MAY 1993

Anisotropic traveltime tomography. *R. J. Michelena, F. Muir and J. M. Harris* 381
The magnetic anomaly of 3D sources having arbitrary geometry and magnetization. *Tapio Ruotoistenmäki* 413
Porosity and pore structure from acoustic well logging data. *G. Tao and M. S. King* 435
Accurate finite-difference operators for modelling the elastic wave equation. *Cord Jastram and Alfred Behle* 453
Radon transform application to the improved gridding of airborne geophysical survey data. *Zhou Yunxuan* 459
Parabolic and hyperbolic paraxial two-point traveltimes in 3D media. *J. Schleicher, M. Tygel and P. Hubral* 495
Errata 515

NUMBER 5: JULY 1993

Multi-offset acoustic inversion of a laterally invariant medium: application to real data. *Jan Helgesen and Pierre* Kolb 517
3D kinematic inversion from a set of line profiles. *Valery Sorin, Shemer Keydar and Evgeny Landa* 535
Residual statics estimation by stack-power maximization in the frequency domain. *E. Nørmark* 551
Residual statics estimation: scaling temperature schedules using simulated annealing. *E. Nørmark and K. Mosegaard* 565
Determination of electrical properties of the ground at shallow depth with an electrostatic quadropole: field trials on archeological sites. *Alain Tabbagh, Albert Hesse and Réjean Grard* 579
Study of traveltime and amplitude time-lapse tomography using physical model data. *M. Leggett, N. R. Goulty and J. E. Kragh* 599
Migration to zero offset (DMO) for a constant veolcity gradient: an analytical formulation. *Michel Dietrich and Jack K. Cohen* 621
On the construction of the 3D band-limited extrapolation operator in the space-frequency domain. *Einar Maeland* 645

NUMBER 6: AUGUST 1993

Editorial comment 659
Model-based stack: a method for constructing an accurate zero-offset section for complex overburdens. *E. Landa, P. Thore and M. Reshef* 661
Dielectric properties of wet soils in the frequency range 1-3000 MHz. *W. A. Wensink* 671
Three-dimensional interpretation of multiple-source bipole-dipole resistivity date using the apparent resistivity tensor. *H. M. Bibby and G. W. Hohmann* . 697

Wave-equation multiple suppression using constrained gross-equalization. *David J. Monk* 725
Temperature effects on airgun signatures. *Jan Langhammer and Martin Landrø* 737
Numerical seismogram computations for inhomogenous media using a short, variable length convolutional differentiator. *B. Zhou, S. A. Greenhalgh and J. Zhe* 751
On the computation of the magnetic field due to a D.C. point electrode at the vertical boundary between two quarter-spaces. *H. Hvoždara* 767
A reconciliation of mathematical models for spontaneous mineralization potentials. *Peter Furness* 779
On the completeness of data sets with multielectrode systems for electrical resistivity survey. *Biwen Xu and Mark Noel* 791

NUMBER 7: OCTOBER 1993

Diffraction by a wedge in an acoustic constant density medium. *Per Berg, Flemming If, Per Nielsen and Ove Skovgaard* 803
Approximations to shear-wave velocity and moveout equations in anisotropic media. *Xiang-Yand Li and Stuart Crampin* 833
Variation of reflection and transmission coefficients with crack strike and crack density in anisotropic media. *Xiang-Yang* Li and Stuart Crampin 859
Borehole effects on downhole seismic measurements. *Chengbin Peng, C. H. Cheng and M. N. Toksöz* 883
Seismic stratigraphy in high resolution shallow marine seismic data of the Gemlik Gulf. *Cengiz Kurtulus* 913
Imaging capability of cross-hole seismic reflection surveys. *P. S. Rowbotham and N. R. Goulty* 927

NUMBER 8: NOVEMBER 1993

Simultaneous vibroseis recording. *J. E. Martin* 943
Line current filtering of fixed-loop transient electromagnetic data. *R. S. Smith and S. A. Whitaker* 969
The fractal dimension of gravity data sets and its implication for gridding. *Pierre Keating* 983
Frequency-dependent complex resistivity of rock-salt samples and related petrophysical parameters. *J. M. Kulenkampff and U. Yaramanci* 995
Depth imaging of offset vertical seismic profile data. *Lasse Amundsen, Børge Arntsen and Rune Mittet* 1009
Algebraic processing techniques for estimating shear-wave splitting in near-offset VSP data: theory. *Xinwu Zeng and Colin MacBeth* 1033
Comment on 'Secondary shear waves from source boreholes' by J. A. Meredith, M. N. Toksöz and C. H. Cheng. *J. A. De Bruin* 1067

Reply to Comment by J. A. De Bruin on 'Secondary shear waves from source boreholes'. *J. A. Meredith, M. N. Toksöz and C. H. Cheng* 1071
